

**Pryor Mountain Wild Horse Range *Draft* Herd Management Area Plan Evaluation and
Preliminary Environmental Assessment
Reader's Guide**

The Pryor Mountain Wild Horse Range Draft Evaluation and Preliminary Environmental Assessment is composed of separate sections in order to fully disclose and take a hard look at proposed management actions. In order to understand the Draft Herd Management Area Plan and what the BLM, Forest Service, and NPS are proposing, the reader must understand the document and how the document is organized.

Section 1.0 is the Purpose and Need of the document which outlines the background information, authorities, Land Use Plan Decisions and Issue Identification. This part of the document refers to existing circumstances and **is not the proposed action or new HMAP.**

Section 2.0 is the Description of the Alternatives Including the Proposed Action.

Alternative A, or the No Action Alternative would implement of the current 1984 HMAP and 1992 revision.

The Proposed Action or Alternative B, in Section 2.0 is the Draft Herd Management Area Plan.

Alternative C, or the Current Situation describes what is happening now and is used as a baseline in order to fully flesh out the proposed action and the no action alternatives.

Section 3.0 is the Affected Environment and Analysis of Alternatives and contains analysis of the potential impacts to the various resources by alternatives. **In this section, Alternative B, the Proposed Action, is not the HMAP but rather the potential impacts from the Proposed Action.**

Section 4.0 is the Consultation and Coordination Section which contains a list of interested public. This list will most likely grow as more public participate in the process from Draft to Final. This section will remain incomplete until the document is finalized.

Section 5.0 is Appendices and Reference Glossary
